Writing and Publishing Your Book: A Guide for Experts in Every Field

But a dangerous test turns even more deadly when hostile forces seize control of the saucer --and turn it against the Enterprise. After the twelfth century, Europe had more significant scientific scholars than the Arabic world, as Harvard historian George Sarton noted in his Introduction to the History of Science After the fourteenth century, the Arab world saw very few innovations in fields that it had previously dominated, such as optics and medicine; henceforth,

its innovations were for the most part not in the realm of metaphysics or science, but were more narrowly practical inventions like vaccines.
